EXPERIENCE

Fortuny Advertising   Baesa, Quezon City
Work Immersion   April 2025 – May 2025
- Digitally created 2D layout designs and 3D model samples for signage manufacturing using SketchUp, Photoshop, Illustrator, and Canva
- Edited promotional images and videos for the company's social media
- Assisted in the manufacturing and preparation of various signage types, including acrylic, metal, sticker, tarpaulin, and LED

Freelance Programmer   Marilao, Bulacan
                                                              August 2022 – Present
- Developed python programs to automate clients' repetitive tasks, improving overall efficiency.
- Created an automatic student ID generator with integrated QR codes for easy identification.
- Designed a mockup social media website for a school project using HTML, CSS, and JavaScript.

WORKSHOPS / SEMINARS

Introduction to Arduino Workshop (February 2025)   Fairview, Quezon City
- Acquired foundational knowledge of Arduino, including module connections and programming. Applied these skills in a final project by successfully integrating LEDs, switches, and sensors to create a functional system.

Cybersecurity Seminar (October 2024)   Fairview, Quezon City
- Learned about various types of malwares, cyber threats, and best security practices to protect systems and data.

Junior First Aid Workshop (June 2024)   Fairview, Quezon City
- Successfully completed a workshop on First-Aid and CPR, providing essential knowledge and hands-on training in responding to medical emergencies, including wound care, choking, and cardiac arrest management.
